DP-6 Records / DR127

For the seventh year the Toki Fuko project continues to please his audience with a vivid and original music.

Many should remember his musical bomb - track Click, which has always been 100 percent successful on the dance floor. Powerful, but very deep release Hight Tide, Sabana, and the Private Club and also his remixes.

Since then, the sound of Sergei became deeper, more measured pace, but you can still catch "the very mood of the music", which has always been the characteristic of Toki Fuko.

In his new release, Bruma on DP-6 Records Sergei continues the musical story, in which the listeners can expect gradual immersion into the world of sound, flowing lines and dreamy moods.

Enjoy!
